## Conservatism in a Changed World History, Summary, Outlook

The "changed world" is the world changed by the pandemic, but also the one that has changed, and keeps changing, as a result of the inexorable growth in size and influence of the internet. The latter has practically ruined what we had formerly called the book. People today are neither capable of nor willing to read anything extending beyond 25 lines. Hence what you will see here – a work in progress, or in a sense a work in regress – is not really a book. It does not even have a table of contents. It
